

THE AWARD WINNING TEMPEST™ TORCH

Gas Lamps By Travis Industries

Why not own what's being called "This Year's Hottest New Addition to the Outdoor Room".

Natural Venturi Effect

As the flames rise the natural Venturi effect will cause the flames to spiral and dance within the tempered glass walls.

Stainless Steel Construction

Designed for durability and long life combined with clean, contemporary lines.

Optional rain cap provided at no additional cost.

3-Ring Burner Head

Circular stainless steel burner designed to enhance the spinning flames as they raise off the burner.

Ingenious Concealed Tension Springs

Allows for easy removal of tempered glass for cleaning and service.

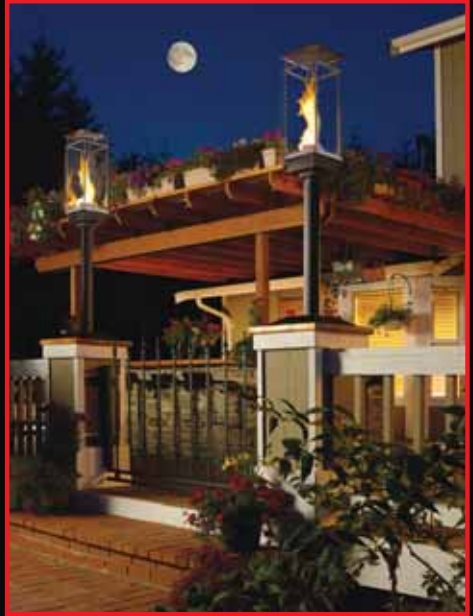

Dry Weather Igniter

After engaging gas, simply twist the Piezo igniter to light the torch.

Access for a wand lighter is provided to light the torch in wet weather conditions.

Gas Valve Control

Provided ON/OFF and variable flame height control of the flame.

Post Mount Models

Options allow for tall or short post and pedestal installations on decks, walkways and entrances. In ground post option available as well.

Wall Mount Model

Make a grand impression to your entry way or any exterior wall. Install on patios or decks - covered or not.

Portable Patio Model

Available in LP or NG versions. Uses 5 gallon LP tank or can be hard piped with NG or LP.
